TESTIMONIALS

"With screws from an ACL-repair, my 40-year old knee has a personality of its own. The PS3 Performance Patella Sleeve allows me to train and race without worrying about my knee slowing me down. With several size options, finding the proper fit is easy and after the first mile of running, it self-adjusts into a comfortable position, and I usually forget it's there! Nice to find a product that offers a solution for athletes without causing other problems! Thanks for the confidence booster."
